- (1) **VET Certificates:** Some fees are impacted if students have enrolled in a VET certificate and elected to use their VETiS funding. (In most cases, the VETiS funding covers all other aspects of the course. However for some certificates with high level consumables (eg Hospitality) students are required to contribute subject fees via the SRS.)
- (2) Students can only elect to do one VETiS funded certificate except for INTAD Note 3 refers.
- (3) Students in Years 11 and 12 can elect to do **both** certificates in *Construction* and *Engineering Pathways*. However, the VETiS funding will cover only **ONE** of the certificates. Therefore, students will be required to pay additional fees to cover the cost of consumables in the second certificate. All students who are doing **both** certificates will use their VETiS for the **Engineering Pathways** certificate and pay the nominated fees for the **Construction** certificate (currently \$15). (Note membership of the SRS Scheme contributes to the overall cost.)
- (4) Note there may be some changes for some certificates fees if the RTOs makes adjustments to their fee structure for 2024.

Curriculum Handbooks will detail the inclusion in these fees relating to compulsory activities (excursions, camps etc). (Note that the certificate courses may not be able to advertise their fees, if applicable, until later in the year.)
