Each school review generates a number of key improvement strategies to inform continuous improvement in all state schools. The next steps are...

- ➔ Establish comprehensive and consistent moderation practices across school faculties and explore opportunities to include external moderation in Years 7 to 10.
- ➔ Progress the school's inclusion agenda including a focus on shared understanding, commitment and application of inclusive practice.
- ➔ Deepen teachers' understanding and application of the pedagogical toolbox to build pedagogical consistency across the school.
- ➔ Expand the use of formative assessment and short-term data cycles to enhance identification of next steps for learning.
- ➔ Provide professional learning opportunities to strengthen the knowledge, skills and capability of all staff members to differentiate to meet the learning needs of all students, including high-achieving students.
