# Clontarf's Soccer Champions

Clontarf High School has had a most successful year so far in Soccer.

In the Futsal Indoor Soccer Championships, Year 8 Boys were the runners-up in the Grand Final, losing 3-4 to Cavendish Road State High School. Four members of the team, Terrence Lawson, Zac Tung, Brendan Smulders and Rick Marsh were selected to represent Queensland at the National Championships in Albury, New South Wales. The rest of the team consisted of Jack Vowles, Ben Deranja, BJ Baptiste, Jason Lugg and Craig Hall.

In addition to these four boys, 16 other students from Years 8 to 12 will be playing for Queensland at Albury during the September Holidays. These are Marco Azzarello and Michael Palliser (Year 12) Katie Zahra, Melissa Orr, Robert Ritchie and Josh Wilson (Year 11), Sasha Brisk, Khalea Willis, Sally Wimberley and Andrew Jennings (Year 10), Melissa Feuerriegel, Lottoya Asanuma and Chloe Griffiths (Year 9) and Catherine Schutze, Coressa Chan and Melissa Coutts (Year 8)

Indoor soccer is a valuable pre-season training and skill development process for our students at the school. The success of the students has continued onto the Soccer field with 11 students selected from the Sunshine Coast Regional trials to play at the State Championships.

Soccer coaches, Rod Smith and Sandy Bowden, are looking forward to a great year with entry and participation in all the Boys and Girls Cups and competitions available. Close ties with local Soccer Clubs, Peninsula Power and PCYC, are enhancing our Soccer Development Program.

# Students' hi-tech fast

Herald 5/6/02

## Education

MORE than 200 students at Clontarf Beach State High School participated in the 40-hour famine fundraiser this year, but not all students went just without food.

To allow everyone the opportunity to maintain their fast, a number of options were available.

Instead of skipping just food, several students chose to "fast" from technology - a big sacrifice for many young people today.

This meant going 40 hours without the use of mobile phones, computers, television, radio, stereo and electronic games.

The students were helped along with support from their family and friends.

• Back, from left, Linley MacGregor, Cassie Harris and, front, Chantelle Williamson, Sarah Allison, Chandelle Willis display their support for those fasting from technology.
